PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 11+ years of experience building scalable enterprise web applications, payment platforms, EV charging solutions, and cloud-based products using Angular, React, Node.js, GraphQL, and AWS technologies. Experienced in leading full-stack development initiatives, mentoring engineering teams, managing Agile delivery, and supporting large-scale production systems.

Strong expertise in frontend engineering, backend API development, microservices architecture, CI/CD deployments, cloud integrations, and enterprise product development. Proven ability to deliver high-performance applications, improve development efficiency, and collaborate with cross-functional stakeholders in fast-paced engineering environments.

TECHNICAL SKILLS

Frontend Technologies

Angular (1,2,4–19+), React.js, Next.js, TypeScript, JavaScript, Redux, RxJS, Tailwind CSS, SCSS, HTML5, CSS3

Backend & APIs

Node.js, Fastify, Express.js, GraphQL, REST APIs, Java Spring Boot, Kafka, PHP

Cloud & DevOps

AWS Lambda, EC2, S3, Docker, CI/CD Pipelines, Git, Production Support

Databases

PostgreSQL, MySQL, MongoDB, (Prisma ORM, Sequelize ORM)

Architecture & Leadership

Full Stack Development, Microservices, Enterprise Applications, Scalable Systems, Performance Optimization, API Integration, Agile/Scrum, Technical Leadership

---

PROFESSIONAL EXPERIENCE

Experienced in enterprise application development, payment platforms, EV technologies, scalable cloud systems, and Agile engineering leadership.

FITA Academy — Part-Time Trainer / Faculty

March 2026 – May 2026 | Part-Time

- Conducted training sessions on Full Stack Development technologies including Angular, React.js, Node.js,Python, JavaScript, and frontend development concepts.
- Guided students through real-time project development, coding practices, debugging techniques, and modern web application architecture.
- Mentored learners on industry best practices, Agile workflows, Git version control, and interview preparation for software engineering roles.
- Delivered practical sessions focused on enterprise application development and hands-on coding exercises.

WEX Inc — Senior Development Engineer L3

June 2022 – July 2025 | Madurai, India

- Worked on enterprise-scale Electric Vehicle charging and payment platforms using Angular, React.js, Next.js, Node.js, GraphQL, PostgreSQL, and AWS services.
- Developed scalable frontend applications and backend APIs for EV charging systems, fleet management, transaction processing, and reporting dashboards.
- Built interactive dashboards and real-time data visualizations using GraphQL APIs and AWS Lambda-based serverless architecture.
- Contributed to CI/CD deployment pipelines, production support, bug resolution, and system reliability improvements.
- Collaborated with Agile Scrum teams to deliver sprint-based releases and enterprise feature enhancements.

- Mentored junior developers on coding standards, debugging techniques, Git workflows, and frontend engineering best practices.
- Participated in architecture discussions, technical planning, and cross-functional collaboration with product and engineering teams.
- Improved application maintainability through reusable component development and structured documentation.

Key Projects

WEX EV Depot & EV En Route

Tech Stack: React.js, Next.js, Tailwind CSS, Node.js, Fastify, Prisma ORM, PostgreSQL

- Developed EV platform modules supporting charging workflows, dashboard management, and operational reporting.
- Implemented scalable frontend components and backend integrations for enterprise fleet operations.

WEX EV Hub

Tech Stack: Angular, GraphQL, AWS Lambda

- Developed Angular-based dashboards with interactive charting and GraphQL integrations.
- Implemented serverless backend integrations using AWS Lambda for scalable API processing.

WEX IFCS Fleet International System

Tech Stack: Angular 18+, Angular Material, Node.js, Fastify, MySQL

- Built payment and fleet management features supporting international fuel card operations.
- Developed multilingual and responsive UI components using Angular Material.

WEX EnCompass Payment Technologies

Tech Stack: Angular 15+, Node.js, PostgreSQL

- Contributed to enterprise payment technology applications with modern UI architecture and API integrations.

Apptivo Inc — Senior Developer

March 2020 – May 2021

- Developed and maintained scalable enterprise web applications using modern frontend and backend technologies.

- Worked closely with cross-functional teams to deliver customer-focused features and platform improvements.
- Participated in Agile development, sprint planning, debugging, and production issue resolution.
- Contributed to performance optimization and reusable application architecture.

Great Innovus Solutions Pvt Ltd — Senior Developer / Team Lead

January 2016 – February 2020

- Led multiple full-stack web application projects using Angular, React.js, Node.js, PostgreSQL, and MongoDB.
- Managed project delivery, client communication, sprint execution, and technical coordination across development teams.
- Designed enterprise dashboards, workflow systems, real-time communication modules, and reporting platforms.
- Mentored junior developers and established coding best practices for scalable application development.

Key Projects

Social Management System (Mocial)

Tech Stack: Angular 8, Node.js, MongoDB

- Developed a business and social networking platform with live streaming, group chat, and analytics features.

Resort Management System (RMS)

Tech Stack: Angular 7, Node.js, PostgreSQL, Cordova

- Built training and certification management modules with role-based access and employee tracking.

Task Bidding System (VForU)

Tech Stack: React.js, Node.js, Express.js, PostgreSQL

- Developed a freelancer-style bidding platform with chat communication and workflow approvals.

Health Care System (CtrlShiftDoc)

Tech Stack: Angular, Node.js, PostgreSQL

- Developed doctor scheduling, attendance tracking, and approval management modules for healthcare organizations.

Aj Square Inc — PHP Programmer

September 2014 – September 2015

- Developed PHP-based web applications and CRM modules using MySQL and JavaScript.
- Worked on SEO implementations, UI enhancements, and database reporting.

Tower Four Solutions Pvt Ltd — PHP Developer

September 2013 – August 2014

- Built and maintained web applications using PHP, MySQL, AJAX, JavaScript, and frontend technologies.
- Collaborated with designers and developers to deliver customer-facing applications.

EDUCATION

Bachelor of Engineering (ECE)

Vickram College of Engineering — Madurai, India
Graduated: 2013

Languages : English & Tamil

CERTIFICATION

- Oracle Sun Certified Java Programmer

ACHIEVEMENTS

- Most Valuable Person — Great Innovus Solutions Pvt Ltd (2018)
- Best Performer — September 2017
- Best Performer — October 2016
